TRANSMITTAL OF THE FIELD EVALUATION REPORT OF ENHANCED IN SITU BIOREMEDIATION,
TEST AREA NORTH, OPERABLE UNIT 1-07B, DE-AC07-991D1327

Dear Ms. Hain:

Enclosed for your information and transmittal to the Environmental Protection Agency and Idaho Department of Health and Welfare are seven copies of the Field Evaluation Report of Enhanced In Situ Bioremediation, Test Area North, Operable Unit 1-07B. Comments are not necessary on this information copy. This document provides technical details supporting the recommendations regarding bioremediation made in the Field Demonstration Report for Operable Unit 1-07B (DOE/ID-10718). The report discusses field activities performed through September 1999 (consistent with the Field Demonstration Report), and does not include the groundwater monitoring performed after lactate addition ceased. It is being provided for information because it was cited in the Field Demonstration Report and in comment resolutions for that report as a reference for detailed discussions not provided therein.

If you have questions regarding this transmittal please contact Joe Rothermel at 526-5776, or me at 526-2945.

Sincerely,

F. Lee Smith, Director
Environmental Restoration
